A Nurse of Kidney Transplantation at Chenzhou No. 1 People's Hospital, Hunan Province

Date: September 28, 2017 (Phone number: +86 735 234-3050)

Summary

1. "We usually do about 10 kidney transplantation operations each month."
2. (Investigator: Could you do 100 to 200 organ transplants each year?)
3. Nurse: Almost, in a year.
4. The donors are not necessarily all sourced locally. "There's a nationwide network, which notifies us to get the organs and do the operations in our hospital. We go to obtain the organs, and then we would perform the operations in our hospital."
5. The cost of the surgery is around 300,000 yuan.

Phone Investigation Recording

Investigator: Hello. Is that the Chenzhou No.1 People's Hospital?

Nurse: Yes.

Investigator: Is that the Kidney Transplantations Department?

Nurse: Yes.

Investigator: I have a relative, who wants to have a kidney transplantation surgery. I want to ask if your hospital could do that.

Nurse: Yes.

Investigator: Oh, you do. How long will the patient wait (for the surgery) after coming here?

Nurse: If you want to have the surgery, you can come here, and we will do some relevant examinations.

Investigator: Doctor, I would like to ask you, if you do a lot of organ transplants, I think that the tissue typing would also be so fast. Have you done a lot this year?

Nurse: We have such operations every year. We usually do about 10 kidney transplantation operations each month.

Investigator: Could you do 100 to 200 organ transplants each year?

Nurse: Almost, in a year.

Investigator: Okay.

Nurse: If you want to do it, you have to come back and have your blood drawn. Then we can discuss!

Investigator: Okay. How much is it now? Could you tell me the fees? Approximately?

Nurse: It is about 300,000 yuan.

Investigator: Okay.

Nurse: About 300,000 yuan.

Investigator: Are the kidney sources procured from your own hospital? The donors usually come from your own hospital.

Nurse: No, no. There's a nationwide network, which notifies us to get the organs and do the operations in our hospital. We go to obtain the organs, and then we would perform the operations in our hospital. But the organ recipient, who wants the organ transplant has to wait in our hospital and have it done here.

Investigator: I thought the donors are all sourced locally. Not necessarily, right?

Nurse: Not necessarily.

Investigator: Oh.

Nurse: You can come and learn about it.

Investigator: Okay. Thank you.

Nurse: Okay. Bye.
