Phone Investigation Recording

Investigator: You have told me that there're a lot of cases done by your hospital. My doctor told me that your hospital can perform 400 or 500 cases each year, that is the reason I'm calling you. Can you do so many cases within one year? It's that many? How many in this year?

Nurse: The volume is increasing each year! If you come, you can register with that kidney transplant doctors. They will arrange the specifics.

Investigator: You said that the volume increases all the time. Our doctor here said that you can do as many as 400 or 500 cases each year?

Nurse: I have no idea about this. No statistics on this yet.

Investigator: Just a rough figure is enough. Roughly how many cases each month? Is it a dozen, 10 or 20 cases? Many cases each month?

Nurse: We are doing it every day, every Monday, Wednesday and Friday.

Investigator: You don't have to talk nonsense...

Nurse: In any case, we can do several hundred cases. I have no idea about the exact number.

Investigator: That is, you do them every week, right? (Nurse: Yes). Or, do it every day?

Nurse: Every week

Investigator: About 10 cases each week, more or less?

Nurse: Yes.
