

追查迫害法輪功國際組織 (追查國際)

World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

A Doctor at the Dialysis Department, The Second People's Hospital of Shanxi Province

Date: August 30, 2017 (Phone number: +8614797169154)

Summary

1. "There are indeed many kidney transplant patients, as only in our hospital we provide kidney transplant surgeries."
2. "There are indeed many kidney transplant patients! We have done more than 100 transplants this year so far!"

Phone Investigation Recording

Doctor: Hello?

Investigator: Hi, how do you do? Is that the Dialysis Department at the Second People's Hospital of Shanxi Province?

Doctor: Ah, what's up?

Investigator: Are there a lot of patients doing dialysis now?

Doctor: Ah?

Investigator: Are there a lot of patients doing dialysis?

Doctor: What is the matter?

Investigator: Ah, I have one family member. He originally wanted to come back for a surgery, because he is doing dialysis now. He is making preparations for a kidney transplant. But before the transplant, he probably still needs to continue the dialysis. So I would like to ask, are there a lot of patients on the waiting list? Are there a lot of patients doing dialysis now?

Doctor: Uh, there are many patients.

Investigator: Many. So that means, there are many patients like him (Doctor: Hmm), but if it does not work, will many of them go seek kidney transplants?

Doctor: There are indeed many kidney transplant patients, as only in our hospital we provide kidney transplant surgeries.

Investigator: Really, I am calling because...

Doctor: If it is for a kidney transplant, you'd come and get hospitalized, for the tissue typing. After the tissue typing, you would wait for a donor.

Investigator: Oh, just wait? So some of the patients going through dialysis have plans to have kidney transplants, right?

Doctor: That's right!

Investigator: Are there many kidney transplant patients?

Doctor: There are indeed many kidney transplant patients! We have done more than 100 transplants this year so far!

Investigator: Oh, so in your hospital, you can do several hundred transplants a year! I mean kidney transplants.

Doctor: Ah! What's the point?

Investigator: I mean, your hospital, the Second Hospital, does several hundred kidney transplants a year.

Doctor: Right, more than 100 cases a year.

Investigator: Oh, that is really a lot. So the patients here, after the transplant operation, how is their recovery? How is the quality of the donors?

Doctor: Alas, you have to ask the ICU, you have to ask them as they are doing the transplants. Oh, we are the dialysis department.

Investigator: Oh, I would like to know some basic information first. If I call the surgeons in that department, what number should I dial to be able to reach them? There is some information I need to find out.

Doctor: 7242464

Investigator: Oh, 724? 7242 (D: Yes) 464. Is this the surgeon's number? The phone number of the doctors' office?

Doctor: Correct!

Investigator: Oh! All right. Thank you!

Doctor: Oh.

Investigator: Thanks again!

Doctor: You may ask them.

Investigator: OK, thank you!

Doctor: Goodbye!
